

FEATURE ARTICLE: J-CUP GUERNSEY 2011

After Weatherwhiz's successful launch in May we are pleased to announce that the forthcoming J-Cup will be able to take advantage of our services that we have already provided at sporting events this year.

The service set up by meteorologist Libby Greenhalgh, who is currently working with the Skandia British Sailing Team gearing towards the Olympic and Paralympic Games, aims to provide a specialist service to help people in the sporting world who are directly affected by the weather to train, compete and simply enjoy their sport to the maximum.

For the duration of the J-CUP at Guernsey a free forecast for the racing area will be blogged through the Weatherwhiz site. You can see examples of these on the [blog](#) at the moment from previous events this year.

EXPECTED WIND CONDITIONS

St Peter's Port:	Guernsey Airport
NE-SE~ 42%	NNW-NE~7%
SE-W ~ 12%	NE-ESE~ 8%
W-NNW~ 26%	ESE-SSW~ 12%
NNW-NE~ 18%	SSW-NNW ~ 62%

Other services that are available through the website include a venue guide for Guernsey (a small taster of the venue guide is currently available) and a more detailed day by day forecast – a must for anyone wanting to stay ahead of the competition!

The following offers are available for these 2 bespoke services for the Worlds
 WEATHERWHIZ GUERNSEY VENUE GUIDE: £50.00
 DAILY COURSE AREA SPECIFIC FORECASTS (for the event 12-14th): £50.00
 PACKAGE DEAL: GUIDE and FORECASTS: £75.00

Simply contact us via info@weatherwhiz.co.uk including your name, email address, sail number and service request OR use the contact form on the site by clicking [here](#)

Weatherwhiz will also be supporting the Women's Open Keelboat Championship and offering a similar opportunity for Cowes Week and a number of major sporting events throughout the year.

Visit us today at www.weatherwhiz.co.uk.

You can keep up to date with what where and who Weatherwhiz is supporting through the [Twitter](#) feed and our [Facebook Page](#) on the day to day basis as well as some behind the scenes activities of forthcoming events, like the Olympic Test Event, with our [blog](#).
